[] Newsletter List

Total \$ _____

Date _____

Please make check payable to SCV Computer Club

Mail to (or bring to a meeting)
18727 Nadal Street
Santa Clarita CA 91351

Where do you rate yourself?

Beginner: You are able to use your computer to play solitaire and operate programs in their simplest mode. You can use E-mail and you wonder how others are able to do so much with their word processing program. You are thinking about taking computer classes at Golden Oak Adult School to learn more about your Windows Operating System, Microsoft Word, and the Internet.

Intermediate: You know when your system does not seem to be working quite right. You are able to contact technical support or other computer club members to help you resolve computer problems. You are able to install and remove software programs and you have attended some type of computer show or conference or have taken computer classes at Golden Oak.

Advanced: At this stage you are able to help others install programs, do minor trouble shooting and repairs, and you are using the advanced features of your programs. You have probably tweaked your system to better suite your needs.

Geek: You have a high level of expertise working with computers.
